

VILLAGE OF INDIAN HILL 2010 Water Main Improvements

June 2010

Water main construction, in conjunction with the **Indian Hill Water Department's** 2008 Master Plan, is continuing along **Drake Road**. All work will be completed under one lane of traffic with the use of flagmen during the day. The walking path on the west side of Drake Road will be closed for safety reasons.

NOTE: Water main work at the intersection of Shawnee Run Road and Drake Road will take place starting June 7, 2010 and will last approximately two weeks.

Upon the completion of all work to this point, the installation of 12" water main will proceed south on **Drake Road** to Indian Hill Road with one lane of traffic being maintained during the construction work hours. The walking path on the west side of Drake Road will be closed for safety reasons. (Estimated Time ~ June & July)

The final leg of the water main construction will consist of 10" water main being installed on **Drake Road** to Varner Road and 8" water main to the south terminus of Drake Road. (Estimated Time ~ July & August)

Expect some traffic delays and/or other inconveniences to occur. Alternate routes should be considered. **Please drive safely.**

Thank you for your cooperation and patience during the construction of this important water distribution infrastructure project. Any questions can be directed to Mr. Jason Adkins with the Indian Hill Water Works at 831-3885. Other details on the water main construction are available on the Village of Indian Hill web page at www.ihill.org under Departments; Water Works ~ More Information - 2010 Water Main Improvements / Public Works ~ Road Construction - 2010 Water Main Improvements.
